Shareholder: Will the subsidiary still have continuous good earnings from the 2017?

Mr. Harin Upra, Director and Managing Director of DCS: The subsidiary is likely to continue operating well by considering that customers in the financial services industry, insurance, life insurance and the security business will continue to grow.

Shareholder: What are the trends or goals of growth for DCS?

Mr. Harin Upra, Director and Managing Director of DCS: The growth of the information technology industry is about 5-8 %, but DCS is aiming at 15 %. From the Digital Transformation, it is possible to move but it depends on government policy, adaptation of the consumer and security, such as the leakage of the business sector, so the people ahead will be more adaptable.

Shareholder: Will foreign companies who enter into business in Thailand, such as Alibaba, affect DCS?

Chairman: The use of information technology tools to provide more economic opportunity will depend on the players who provide more services. In general, players who are out of the system (Offline) will have more opportunities.

Mr. Harin Upra, Director and Managing Director of DCS further clarified: Competitive factors are undeniable. In the past, there was more Global Players in our country. If we can fight we fight. But if we cannot fight, we will co-operate with them. For Alibaba's business, it is e-commerce business, which is not concern with the business of DCS. However, the Company will keep the eye with this matter.

Shareholder: Currently, PT has only DCS as the Company's subsidiary. Please be advised that within 1-3 years, there is a tendency to invest in other subsidiaries or not.

Shareholder: Do donations of PT and DCS overlap?

PT is an investment business and DCS is an Information Technology Business. So the revenue management is different. The benefits will be worth it and bring the social benefits doubly.
